Passionate about writing code, front-end development, UI/UX, and responsive design; bringing broad understanding of modern HTML5, JavaScript, jQuery, CSS, SASS, React, Bootstrap, Node.js, MongoDB.

TECHNICAL SKILLS

Languages: HTML5, CSS, JavaScript

Technologies: React, node.js, bootstrap, jQuery, MongoDB, SASS, Redux, GIT, Github

Other: Responsive design, Performance testing, Photoshop, Figma

PROJECTS

Murphy's Music School | <https://github.com/ColinJhEdwards/murphy-music-school> | <https://murphys-music-school.herokuapp.com/>

- Murphy's Music School's mission is to bring their community together through the joys of music by providing a quality music education.
- Designed and implemented pages from concept through deployment using React.
- Utilized multiple packages for styling such as styled-components, framer motion, bootstrap, and material-ui.

Sweep | <https://github.com/ColinJhEdwards/Sweep> | <https://sweep-movies.herokuapp.com/>

- Sweep is an online database full of information related to movies. Users can browse a collection of movies or search for a specific movie.
- Used React to create reusable components.
- Used Axios calls to fetch and display JSON data from multiple APIs.
- Used Redux to manage applications state.
- Created responsive web pages with media queries, CSS grid, flexbox, and bootstrap.

Socks | <https://github.com/ashley-ag/Socks> | <https://socks-stocks.herokuapp.com/>

- Socks is a web-based application that allows users to view their current stock units.
- Collaborated with a team of multiple developers to implement features.
- Led the design and frontend development.
- Utilized React/Express/MongoDB to store user information, pull stock data from APIs and create data visualization tools.

EXPERIENCE

Volunteer Front End Developer 08/2021 – Present

Inca Wheels, Non-Profit

- Implemented websites and landing pages from concept through deployment.

- Used frameworks such as React and Bootstrap for front end development.
- Used design software such as Figma and Photoshop for editing photos.
- Collaborated with team members to implement new features and design requests.

QA Tester / Team Lead 01/2019 – 10/2020

Nintendo Redmond, WA

- Successfully managed multiple teams consisting of product testers.
- Identified and reported over 100 high quality bugs and errors found in software.
- Consistently recognized for excellent problem-solving skills and leadership.
- Created confident communication with QA, development, and business groups.

EDUCATION

Certificate in Full Stack Web Development: University of Washington, Seattle, WA

Bachelor of Arts: Evergreen State College, Olympia, WA
