Self-motivated and ambitious individual, seeking a position as a junior front-end developer. Holds a professional certification in Full Stack Web Development and over 200 classroom hours. Passionate about front-end development and design; bringing broad understanding of modern HTML, JavaScript, jQuery, CSS, SASS, React, Bootstrap, Node.js, MySQL, MongoDB and web development.

TECHNICAL SKILLS
Languages: HTML, CSS, JavaScript
Technologies: React, node.js, bootstrap, jQuery, MongoDB, MySQL, SASS, Redux

PROJECTS
Sweep | https://github.com/ColinJhEdwards/Sweep | https://sweep-movies.herokuapp.com/
- Sweep is an online database full of information related to movies. Users can browse a collection of movies or search for a specific movie.
- Used Axios calls to fetch and display data from multiple API sources.
- Used Redux to manage applications state.
- Created responsive web pages with media queries, CSS grid, flexbox, and bootstrap.

Socks | https://github.com/ashley-ag/Socks | https://socks-stocks.herokuapp.com/
- Socks is a web-based application that allows users to view their current stock units.
- Led the design and frontend development.
- Utilized React/Express/MongoDB to store user information, pull stock data from APIs and create data visualization tools.

Lee's Reptile Emporium | https://github.com/mlcohan/LeesReptileEmporium | https://lees-reptile-emporium.herokuapp.com/
- Lee's Reptile Emporium is an e-commerce webpage for reptiles.
- Led the design and frontend development.
- Utilized node.js, mySQL, and express to allow users to create accounts and add desired reptiles to their shopping cart.

EXPERIENCE
QA Tester / Team Lead 01/2019 – 10/2020
Nintendo Redmond, WA
- Successfully managed multiple teams consisting of product testers.
- Identified and reported over 100 high quality bugs and errors found in software.
- Consistently recognized for excellent problem-solving skills and leadership.
- Created confident communication with QA, development, and business groups.

EDUCATION
Certificate in Full Stack Web Development: University of Washington, Seattle, WA
Bachelor of Arts: Evergreen State College, Olympia, WA
