Self-motivated and ambitious front-end developer seeking a position as a junior front-end developer. Holds a certificate in Full Stack Web Development and over 200 classroom hours. Passionate about front-end development and responsive website design; bringing broad understanding of modern HTML, JavaScript, jQuery, CSS, SASS, React, Bootstrap, Node.js, MongoDB.

TECHNICAL SKILLS
Languages: HTML, CSS, JavaScript
Technologies: React, node.js, bootstrap, jQuery, MongoDB, MySQL, SASS, Redux

PROJECTS

Murphy's Music School | https://github.com/ColinJhEdwards/murphy-music-school | https://murphys-music-school.herokuapp.com/
- Murphy's Music School's mission is to bring their community together through the joys of music by providing a quality music education.
- Designed and implemented pages from concept through deployment.
- Utilized multiple packages for styling such as styled-components, framer motion, bootstrap, and material-ui.

Sweep| https://github.com/ColinJhEdwards/Sweep | https://sweep-movies.herokuapp.com/
- Sweep is an online database full of information related to movies. Users can browse a collection of movies or search for a specific movie.
- Used React to create reusable components.
- Used Axios calls to fetch and display data from multiple API sources.
- Used Redux to manage applications state.
- Created responsive web pages with media queries, CSS grid, flexbox, and bootstrap.

Socks | https://github.com/ashley-ag/Socks | https://socks-stocks.herokuapp.com/
- Socks is a web-based application that allows users to view their current stock units.
- Collaborated with a team of multiple developers to implement features.
- Led the design and frontend development.
- Utilized React/Express/MongoDB to store user information, pull stock data from APIs and create data visualization tools.

EXPERIENCE
QA Tester / Team Lead 01/2019 – 10/2020
Nintendo Redmond, WA
- Successfully managed multiple teams consisting of product testers.
- Identified and reported over 100 high quality bugs and errors found in software.

- Consistently recognized for excellent problem-solving skills and leadership.
- Created confident communication with QA, development, and business groups.

EDUCATION
Certificate in Full Stack Web Development: University of Washington, Seattle, WA
Bachelor of Arts: Evergreen State College, Olympia, WA
